neets
Intuitive Control

Company profile

Neets is a Danish company with experience in the field of audio/visual control systems since 1999.

Our company is specialized in the development and the production of user-friendly and economical control equipment for large screen projectors (beamers), plasma screens, projector screens and room darkening.

Our range of products meet the requirements for a highly technological conference/presentation rooms and class rooms.

Neets is a reliable business partner and we emphasize "quality on time" - relating to our products as well as delivery.

We are well aware of the importance of a trustworthy relationship with our business partners.

Therefore our priorities are: service, delivery on time and quality.

Neets is concerned about the environment and we make an effort to prevent and/or minimize environmental pollution.

Consequently, we do our very best when it comes to making environmentally friendly, non-polluting products with lasting life cycles. Naturally, we take our products back in the end and dispose them in the most environmentally friendly way possible.

NEETS CONTROL - QUEBEC

DESCRIPTION

The Neets Control - Quebec is unique in its layout. Unlike the other control systems in Neets product portfolio, the Neets Control—Quebec has no buttons. The system is plugged to the PC with a VGA cable. When you start the PC the Neets Control - Quebec detects the VGA signal and starts the projector - a straight forward projector control system. It is no problem programming the Neets Control - Quebec. Neets has developed a user friendly Windows based software for programming the system. This small system controls both RS-232 and IR.

FEATURES

- PROJECTOR CONTROL
- INFRA RED CONTROL
- RS-232 SERIAL CONTROL
- NO BUTTONS

NEETS CONTROL - ZULU

DESCRIPTION

Neets Control - ZULU is the biggest system in the Neets product portfolio and the first control system in the new generation of Neets control systems. The system can be controlled via a web browser - e.g. Android smart phone and touch panels or Apple touch devices (iPhone, iPad, iPod Touch etc.). The system has a LAN connection making this feature possible. All it requires is a wireless access point. Neets Control - ZULU is intelligence behind the scene. The box itself is mounted over the ceiling and controlling the requested units through RS-232, IR, LAN and I/O.

FEATURES

- CONTROLLED VIA WEB BROWSER
- USER INTERFACE DESIGN
- EASY PROGRAMMING
- USER SELECTABLE FUNCTIONS
- HIGHLY FLEXIBLE SYSTEM

NEETS CONTROL - SIERRA

DESCRIPTION

Neets Control – SiERRa is the best of both worlds (touch screen interface combined with hardware buttons). An extra dimension is added by a built-in web server, which means you can use a secondary touch panel to get more functions. To get an unlimited number of buttons you can use for instance a smart phone, PC or touch panel (e.g. Android tablet, Ipad, Ipod touch). Other special features are a flexible and recognizable design between small and big room installations, level indication and easy installation.

FEATURES

- PUSH BUTTONS COMBINED WITH GRAPHICAL INTERFACE
- RS-232, LAN & IR CONTROL
- FRONT PROGRAMMING THROUGH USB
- MULTI COLOR LED INDICATION
- LEVEL INDICATION
- FITS BACK BOXES DK SIZE & EU SIZE

NEETS CONTROL - FOXTROT

DESCRIPTION

The Neets Control - FoXtrot is a user-friendly control system in a well-known design. The system has no power on button but starts automatically, when pressing any source key on the panel, which makes it simple to use. The system is easily reprogrammed without dismantling the panel. You just insert your programming connector in the front of the panel and download the new project. Though it is small the Neets Control - FoXtrot combines design and functionality in one product that controls both RS-232 and IR.

FEATURES

- PROJECTOR CONTROL
- INFRA RED CONTROL
- RS-232 SERIAL CONTROL
- EU MOUNTING SIZE
- CLEAR RED LED INDICATION
- KEYBOARD LOCK INPUT

NEETS CONTROL - DK

DESCRIPTION

Neets Control - DK is an economical control system to access all functions of large screen projectors while at the same time controlling the functions of the room (lights, projection screen and room darkening). The Neets Control - DK is intelligent but at the same time easy to use. It has no complicated submenus or any unnecessary buttons. The Neets Control automatically controls all the essential functions of the projector and the room without your interaction. When you have decided upon the input source you wish to use, push the button and the rest of the process works automatically.

FEATURES

- PROJECTOR CONTROL
- RS-232 SERIAL CONTROL
- CLEAR RED LED INDICATION

NEETS CONTROL - EU PROFESSIONAL

DESCRIPTION

The Neets Control - EU Professional is your perfect solution for a meeting or conference room. The system controls RS-232, IR and LAN and has up to 16 custom designed buttons.

The Neets Control - EU Professional is placed on the wall next to the other switches of the room and it contains a minimum of buttons - easy and manageable. The system is available with many different keyboards and frames, giving you endless design possibilities. The Neets Control - EU Professional can be configured over LAN and RS-232 and can be firmware upgraded.

FEATURES

- PROJECTOR CONTROL
- RS-232 SERIAL CONTROL
- FITS EU DIN STANDARD
- IR AND LAN CONTROL
- HIGH DESIGN FLEXIBILITY
- CLEAR RED LED INDICATION

USB TO RS-232 CONVERTER

308-0001

DESCRIPTION

With the USB to RS-232 converter you can convert your USB signal to a RS-232 signal. The product is advantageous when you program Neets Control Systems. Neets verify the use of this USB to RS-232 Converter. Easy and managable programming.

FEATURES

- CONVERT USB TO RS-232 SIGNAL
- FOR NEETS CONTROL SYSTEMS

308-0002

NEETS UNI IR LEARNER

DESCRIPTION

The Neets Uni IR Learner is a small and easy-to-use IR code learner. With this IR learner you can learn codes directly into the Neets Configuration Utility Software. Neets Uni IR Learner plugs into the RS-232 port of any PC and is used to learn IR codes for the Neets Control systems that control infrared driven audio/video equipment.

FEATURES

- EASY AND INTUITIVE
UNI IR LEARNER
- CAN LEARN ALL IR CODES
- LEARNS ALL IR CODES DIRECTLY INTO THE NEETS CONFIGURATION UTILITY SOFTWARE

IR emitters

IR-EMITTERS

DESCRIPTION

When you want to use IR to control your devices from the Neets Control you will need an IR-Emitter. The IR-Emitter must be attached to the device you wish to control from your control panel in order for the device to receive the IR signal. The IR-Emitters are very easy to attach to the device. You just remove the protection label from the IR-eye and stick it to the front side of the device. Length of the cables are 3 meters.

312-0001

NEETS AUDIO AMPLIFIER VERSION 1

DESCRIPTION

The Neets Audio Amplifier Version 1 is the smallest amplifier in the series of Neets audio amplifiers.

The amplifier can be controlled via a Neets Control system. Connecting your Neets control system to the Audio Amplifier Version 1 via the RS-232 comport gives you the possibility to control channel, gain, volume, bass, treble, balance, mute and on/off.

Each source input can have a preset treble, gain, bass and so on.

Finally you get a direct connection for mute, input select and volume .

FEATURES

- 2X15 WATTS AMPLIFIER IN 8 OHM
- 3 UNBALANCED LINE INPUTS
- CIRCUIT SAFE SPEAKER OUTPUTS
- RS-232 CONTROL

SPECIFICATIONS

SIZE:

HEIGHT: 40 MM
WIDTH: 150 MM
DEPTH: 70 MM

OUTPUT (SPEAKERS):

POWER (@ 8 OHM): 2X15 WATT
THD+N @ 25 WATT 8 OHM: <25% (@ 1 KHZ-10 KHZ)
THD+N @ 1 WATT 8 OHM: <0,1% (@ 1 KHZ)

AUDIO INPUTS:

UNBALANCED INPUTS: 3
INPUT LEVEL (ALL INPUTS): 0VRMS - 2VRMS NOMINAL: 0.316 VRMS (-10DBV)

INCLUDED IN BOX:

PSU: 24 VDC/60 W

DIRECT BUTTONS CONTROL:

BUTTONS FUNCTIONS: INPUT SEL, MUTE, VOLUME

RS-232 REMOTE CONTROL:

CONTROL CONNECTED TO:

RS-232-1
BAUD RATE: 9600
STOP BITS: 1
PARITY: NONE

Amplification

NEETS AUDIO AMPLIFIER VERSION 2

312-0002

DESCRIPTION

The Neets Audio Amplifier Version 2 has got the same functions as Version 1. Besides this, one of the huge benefits is that when controlling the Audio Amplifier via a Neets Control system the RS-232 loopthrough function will give you the possibility to control both the amplifier and a projector. This means that you can control two devices via RS-232 from a control system with only one RS-232 COM port. The control system, connected to the Audio amplifier, sends a RS-232 signal to the amplifier. The amplifier then loops the signal through to the projector.

FEATURES

- 2X25 WATTS AMPLIFIER IN 8 OHM
- 4 UNBALANCED LINE INPUTS
- CIRCUIT SAFE SPEAKER OUTPUTS
- 2 RS-232 CONTROL
- RS- 232 LOOPTHROUGH

SPECIFICATIONS

SIZE:

HEIGHT: 40 MM
WIDTH: 150 MM
DEPTH: 70 MM

AUDIO INPUTS:

UNBALANCED INPUTS: 4
INPUT LEVEL (ALL INPUTS): 0VRMS - 2VRMS NOMINAL: 0.316 VRMS (-10DBV)

RS-232 REMOTE CONTROL:

CONTROL CONNECTED TO: RS-232-1
BAUD RATE: 9600
DATABITS: 8
STOP BITS: 1
PARITY: NONE

RS-232 REMOTE LOOPTHRU:

CONTROL CONNECTED TO: RS-232-1
DEVICE CONNECTED TO: RS-232-2
CONTROL POSSIBLE TO USE: ALL NEETS (MINUS NEETS CONTROL QUEBEC)

OUTPUT (SPEAKERS):

POWER (@ 8 OHM): 2X25 WATT
THD+N @ 25 WATT 8 OHM: <35% (@ 1 KHZ-10 KHZ)
THD+N @ 1 WATT 8 OHM: <0,1% (@ 1 KHZ)

INCLUDED IN BOX:

PSU 24 VDC/60 W

312-0003

NEETS AUDIO AMPLIFIER VERSION 3

DESCRIPTION

The Neets Audio Amplifier Version 3 is the most advanced in the series of Neets Audio Amplifiers. Besides the same features as the Neets Audio Amplifier Version 2, this version has a microphone input with volume adjustment. The Audio Amplifier Version 3 has got 3 RS-232 COM ports and can also be controlled via LAN. When using LAN to control the Neets Audio Amplifier Version 3 you actually get 3 extra COM ports in addition to already existing COM ports on the control system.

FEATURES

- 2X25 WATTS AMPLIFIER IN 8 OHM
- 3 UNBALANCED LINE INPUTS
- 1 BALANCED LINE INPUT
- 3 RS-232 CONTROL
- LAN CONTROLLABLE
- MICROPHONE INPUT

SPECIFICATIONS

SIZE:

HEIGHT: 40 MM
WIDTH: 150 MM
DEPTH: 70 MM

OUTPUT (SPEAKERS):

POWER (@ 8 OHM):
2X25 WATT
THD+N @ 25 WATT 8 OHM:
<35% (@ 1 KHZ-10 KHZ)
THD+N @ 1 WATT 8 OHM:
<0,1% (@ 1 KHZ)

AUDIO INPUTS:

UNBALANCED INPUTS: 3
BALANCED INPUTS: 1
INPUT LEVEL (ALL INPUTS):
0VRMS - 2VRMS NOMINAL:
0.316 VRMS (-10DBV)

INCLUDED IN BOX:

PSU 24 VDC/60 W

AUDIO OUTPUT (PREAMP OUT):

NUMBER OF OUTPUTS: 1

MICROPHONE INPUT:

NUMBER OF INPUTS: 1
PHANTOM POWER: 24 VDC

RS-232 REMOTE LOOPTHRU:

CONTROL CONNECTED TO:RS-232-1
DEVICE CONNECTED TO:
RS-232-2

NETWORK (LAN):

SPEED: 10/100 MBIT
DUPLEX: HALF AND FULL

Switching Control

2 - RELAY BOX

306-0002

DESCRIPTION

The 2-Relay box is an easy to install, user friendly relay box. It is developed with test buttons which makes it possible to test the installation before final mounting. Furthermore light diodes will indicate when the relays are active. All connections have plugs which makes the installation easy and manageable. The box has mounting brackets which makes it possible to mount the box on the wall, the ceiling or other surfaces. Finally the 2-Relay box can be mounted and hidden in a cable canal.

FEATURES

- TEST BUTTONS
- MOUNTING BRACKETS
- CONTAINS PLUGS
- MOUNTING ANYWHERE
- CLEAR LIGHT INDICATION

SPECIFICATIONS

RELAY LOAD:

MAX AC1: 1150 WATT

MAX AC15: 500 WATT

SINGLE PHASE

MOTOR RATING:

370 WATT

POWER:

VOLTAGE: 12 V

SIZE:

HEIGHT: 40 MM

WIDTH: 120 MM

DEPTH: 80 MM

306-0003

4 - RELAY BOX

DESCRIPTION

The 4-Relay box is a small relay box for easy installation. The 4-Relay box can be controlled via RS-232 (serial) and/or via Neets normal control function. The box has test buttons that makes it possible to test the installation before final mounting. Furthermore light diodes will indicate when the relays are active. All connections have plugs which makes the installation easy and manageable. The box has mounting brackets which makes it possible to mount the box on the wall, the ceiling or other surfaces.

FEATURES

- RS-232 CONTROLLABLE
- TEST BUTTONS
- CAN CONNECT 4 BOXES
- CLEAR LIGHT INDICATION
- CONTAINS PLUGS

SPECIFICATIONS

RELAY LOAD:

MAX AC1: 1150 WATT

MAX AC15: 500 WATT

SINGLE PHASE

MOTOR RATING:

370 WATT

POWER:

VOLTAGE: 12 V

SIZE:

HEIGHT: 40 MM

WIDTH: 150 MM

DEPTH: 90 MM

2 - RELAY BOX WITH PSU

306-0007

DESCRIPTION

With the 2-Relay box with PSU you get both relays and built in power supply for the Neets Control systems. It is developed with test buttons which makes it possible to test the installation before final mounting. Furthermore light diodes will indicate when the relays are active. The relay box contains direct screen control, rubber grommets and has transient protection. There is enough room in the psycical box to make the installation easy and manageable.

FEATURES

- BUILT IN PSU
- TEST BUTTONS
- CLEAR LIGHT INDICATION
- TRANSIENT PROTECTION
- RUBBER GROMMETS

SPECIFICATIONS

RELAY LOAD:

MAX AC1: 1150 WATT
 MAX AC15: 500 WATT
 SINGLE PHASE
 MOTOR RATING:
 370 WATT

FUSES:

RELAY: 5A/230 VAC
 PSU: 0,5A/230VAC

SIZE:

HEIGHT: 55 MM
 WIDTH: 220 MM
 DEPTH: 170 MM

306-0008

4 - RELAY BOX WITH PSU

DESCRIPTION

This 4-Relay box with PSU gives you both relays and build in power supply. The relay box is controlled via RS-232 (serial) and/ or via Neets normal control function. It is developed with test buttons which makes it possible to test the installation before final mounting. Furthermore light diodes indicate when the relays are active. The relay box contains direct screen control, rubber grommets and has transient protection. There is enough room in the psycical box to make the installation easy and manageable.

FEATURES

- RS-232 CONTROLLABLE
- TEST BUTTONS
- CLEAR LIGHT INDICATION
- TRANSIENT PROTECTION
- RUBBER GROMMETS
- BUILT IN PSU

SPECIFICATIONS

RELAY LOAD:

MAX AC1: 1150 WATT
 MAX AC15: 500 WATT
 SINGLE PHASE
 MOTOR RATING:
 370 WATT

POWER:

VOLTAGE: 12 V

SIZE:

HEIGHT: 70 MM
 WIDTH: 270 MM
 DEPTH: 220 MM

FUSES:

RELAY: 5A/230 VAC
 PSU: 0,5A/230 VAC

306-0012

NEETS POWER CONTROL

DESCRIPTION

Neets Power Control 1 relay box gives you a unique possibility to minimize the risk of fire. At the same time the box makes your installation power saving and environmentally friendly. The relay box is designed to cut power from the projector, amplifier, DVD and other audio visual equipment when the devices are not in use. The power control can cut power from two units at the same time. This gives you the possibility to cut the expensive standby power and furthermore the risk of fire is minimized when the power is cut.

FEATURES

- CUTS POWER - 0 WATT STANDBY
- MINIMIZE RISK OF FIRE
- SAVES THE ENVIRONMENT
- INTERCONNECTS ALL THE WIRING
- JUNCTION BOX

SPECIFICATIONS

RELAY LOAD:

MAX AC1: 1150 WATT
MAX AC15: 500 WATT
SINGLE PHASE MOTOR
RATING: 370 WATT

SIZE:

HEIGHT: 100 MM
WIDTH: 100 MM
DEPTH: 50 MM

POWER:

VOLTAGE: 12 V

FUSES:

RELAY: 8A/230 VAC

USB SWITCH 2-1

306-0004

DESCRIPTION

Neets USB Switch 2-1 gives you the possibility to switch between two computers output (e.g. from a central computer and a laptop) to the same interactive board. The advantage with the Neets USB Switch 2-1 is that when you use Neets Control systems you avoid installing software and you control the switch from the Neets Control system. The switch supports USB 2.0 standard in speed. It works both as a manual switch, and has a possibility to switch to priority mode.

FEATURES

- SWITCH BETWEEN DEVICES
- NO SOFTWARE INSTALLATION
- HIDE IN CABLE CANAL
- SUPPORTS 2.0 STANDARD IN SPEED
- MANUAL SWITCH AND POSSIBILITY TO SWITCH TO PRIORITY MODE

SPECIFICATIONS

NUMBER OF INPUTS:

COMPUTER USB INPUT: 2
EXTERN CONNECTOR: 1

5V DC TO DEVICE
(REQUIRES EXTRA PSU)

SIZE (INCL. MOUNT. BRACKETS):

HEIGHT: 25 MM
WIDTH: 130 MM
DEPTH: 50 MM

Switching Control

306-0006

SERIAL SPLITTER 1-4

DESCRIPTION

The Neets Serial Splitter 1-4 gives you the possibility to easy and electronically correct distribute one RS-232 signal to four identical receivers - eg. projectors, LCD or plasma screens. If your project requires more than four devices this is also a possibility. Just add another Neets Serial Splitter 1-4 to one of the output ports on the first splitter and you are all set.

FEATURES

- DISTRIBUTE RS-232 SIGNAL
- HIDE IN CABLE CANAL

SPECIFICATIONS

POWER:
12DC

NUMBER OF PARTS:

SETTINGS:
AUTODETECT
BAUDRATE, DATABIT. PARITY, STOPBIT
TWO WAY PORT: 1
TX PORT: 3

SIZE (INCL. MOUNT. BRACKETS):

HEIGHT: 25 MM
WIDTH: 130 MM
DEPTH: 50 MM

Input Panels

DK size

INPUT PANEL - DK, VGA + AUDIO

305-0060

DESCRIPTION

Neets Input panels are designed to support Neets Control systems. The primary purpose of the input panel - DK, VGA + Audio is to hide the cables from the installation to avoid unfortunate termination, and to give your installation the final finish. The cables are hidden in the wall or in a cable canal behind the input panel. With the input panel - DK, VGA + Audio you only have to plug in the devices and you are all set. Besides the fact that the design of the input panel is elegant and discrete, it is specially made to fit the Danish standard outlet and design in general.

FEATURES

- HIDES CABLES
- COMPLETES INSTALLATION
- FITS DANISH OUTLET
- DISCRETE DESIGN
- FOR VGA AND AUDIO

SPECIFICATIONS

INPUT CONNECTIONS:

PC: 15 PIN SUB-D (NOT INCLUDED)
AUDIO: 3.5 MM JACK SOCKET

OUTPUT CONNECTIONS:

AUDIO: SOLDER

SIZE (WITHOUT FRAME):

STANDARD: DENMARK
HEIGHT: 45 MM
WIDTH: 45 MM

INPUT PANEL - DK, KEYBOARD LOCK

DESCRIPTION

Neets Input panels are designed to support Neets Control systems. The primary purpose of the input panel - DK, Keyboard lock is to hide the cables from the installation to avoid unfortunate termination, and to give your installation the final finish. The cables are hidden in the wall or an cable canal behind the input panel. The special feature of the Input panel - DK, Keyboard lock is that it can lock the Neets Control - DK to avoid unwanted handling of the system. Besides the fact that the design of the input panel is elegant and discrete, it is specially made to fit the Danish standard outlet.

FEATURES

- HIDES CABLES
- COMPLETES INSTALLATION
- FITS DANISH OUTLET
- DISCRETE DESIGN
- FOR KEYBOARD LOCK
- LOCK NEETS PANEL

SPECIFICATIONS

INPUT CONNECTIONS:
LOCK: KEY SWITCH

OUTPUT CONNECTIONS:
WIRE
