

Anglia Composites Ltd

A wide range of stainless steel clips and clamps available from stock for all grating types. Also available are a range of stainless steel and plastic feet which can be used to create raised walkways of varying heights. Clips and clamps come complete with all necessary nuts, bolts and washers.

M clips available for 50mm, 38mm, 25mm, 20mm and mini-mesh gratings.

G clamps available for 50mm, 38mm and 25mm thick gratings

Installed M clip

Use Mclips to hold grating panels down firmly. Use at least 4 per panel. Use G clamps to join panels together where there is no support. Use at least 2 per panel. Please contact us for a sample.

Installed G clamp

Plastic and stainless steel feet available to create raised walkways up to 300mm high. A plastic threaded insert fits snugly into the underneath of the grating. A foot can then be screwed into the insert to the required height. Ideal for uneven floors or where liquids need to escape safely underneath the flooring.
