

Manual Arm Barrier 3m, 4m, 5m, 6m and 7m Galvanised and Colour

The AUTOPA Manual Arm Barrier has a slimline design and is suitable for use protecting car parks and other entrances to commercial property. This barrier is ideal for areas where access only needs to be restricted during certain times of the day. The barrier can be locked in the raised and lowered positions offering complete peace of mind when the parking area is not in use.

Manufactured from galvanised mild steel with an aluminium boom, the body of the barrier is powder coated red as standard (other colours are available upon request; please state BS/RAL numbers at time of order). Pogo sticks, folding skirts and double span barriers are available on request. Locking the AUTOPA Manual Arm Barrier at the Catch Post is an additional option, please state at the time of order if this is required.

138 106 370	7m Galvanised & Colour - Bolt Down
138 106 370R	7m Galvanised & Colour - Concrete In

Product details

- 1200mm (approx) overall height
- Concrete in 600mm (below ground)

Installation & use

Bolt down Manual Arm Barriers require bolting down to a suitable concrete surface (no less than 600mm³) by means of four M16 bolts per leg. Concrete in Manual Arm Barriers require an excavated hole (no less than 600mm³) for installation. It is recommended that suitable signs are installed to ensure vehicles are aware of the obstruction. This product is guaranteed for 12 months (if installed and used correctly).
