# Square TOPLOK Parking Post Galvanised, Galvanised & Colour

The AUTOPA Square TOPLOK Parking Post is a padlockable variant of the original hinged parking post. The tried and tested design ensures that your parking space will always be available when required. Highly durable, the parking post is manufactured from mild steel and is galvanised as standard to ensure its longevity.

The AUTOPA Square TOPLOK Parking Post is locked by fitting a padlock to the top of the post through the lower hole of the bar protruding through the top of the post. Supplied flanged only, colour coated versions are also available (please specify BS/RAL numbers at time of order).
