

STERLING

SRA320 Straight Cutting Semi-Automatic Bandsaw

The Sterling SRA320 features an auto downfeed operation which is ideal for cutting a wide range of profiles, although being especially suited to cutting tubes and solid bar stock. A blade speed inverter is standard giving these machines the capacity to cut a wide range of material types including more exotic materials.

The Sterling brand is one of the leading brands in the metal cutting world. Reliability, dependability and high accuracy are hallmarks of Sterling bandsaws.
