

**DG Supplyline Ltd**

**Door Handle  
Catalogue 2016**

This catalogue contains all of our currently available residential door handles and is organised into type (lever/lever, lever/pad and lever/pull)

**Lever / Lever**

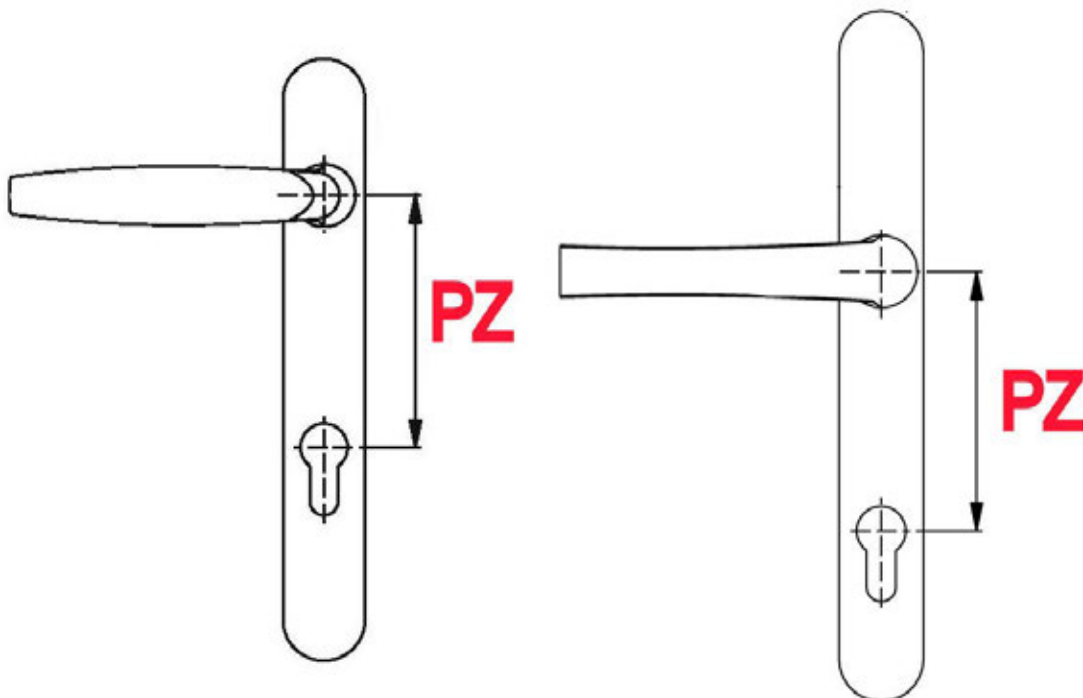

**Lever / Pad**

**Lever / Pull**

Each section is also organised into 'PZ' size. The PZ is the distance between the spindle hole and the circular part of the cylinder hole. Some handle sets have offset levers and the external lever can be of a smaller PZ size than the internal lever.

If this is the case then be sure to measure both PZ sizes.

**Chrome:** 1205/CB/H11  
**Brass:** 1205/CB/H12

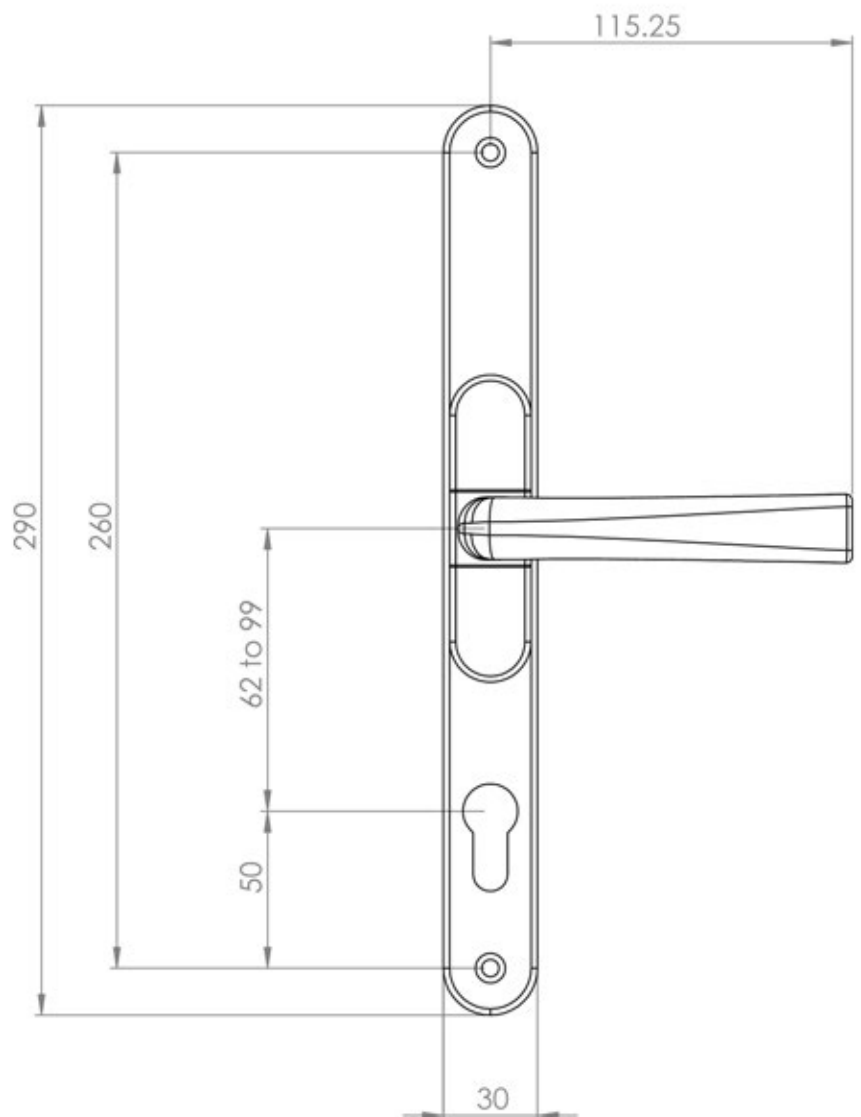

Flexi

Adjustable levers can be moved to suit PZ sizes anywhere between 62mm-99mm

The handles can also be set at offset positions to operate twin-spindle multipoint locks

M5 fixings, spring cassettes & 8mm spindle included.

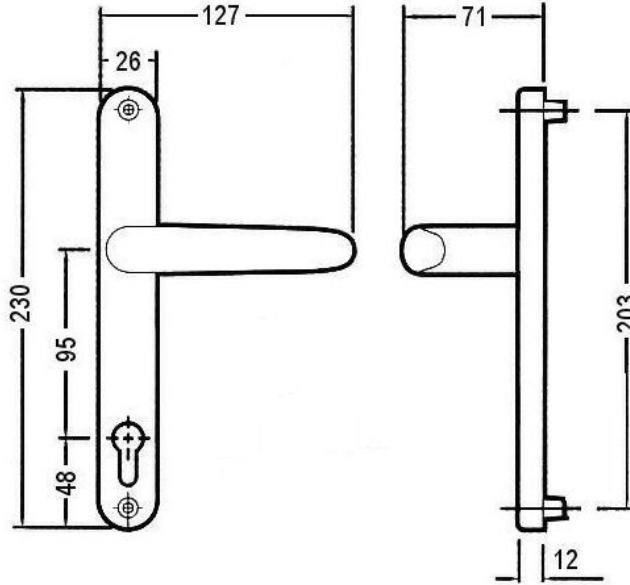

With so many different sizes and types of door handle on the market, it can be difficult to carry a large enough selection to cater for all jobs.

Help is at hand in the form of the Flexi Handle. It has adjustable lever plates which allow you to use these handles on any lock with a PZ size between 62 and 99mm.

You can even use the handles at offset PZ distances to suit locks with twin spindle holes.

The oversized 290mm backplate also ensures that these handles should cover the mounting holes of most existing handles on the market

**White: FFHL-WH**  
**Chrome: FFHL-CH**  
**Gold: FFHL-G**

## Arizona 95

Atlanta M3640N
