# CATTANI UK CATALOGUE

# INTRODUCTION

Established in 1988, the Company supplies the UK dental trade with high-quality aspirators, compressors, amalgam separators, suction tips and adaptors, disinfectant and sanitising products. We also provide technical solutions, consulting, training courses, a reliable maintenance support and parts service, plus laboratory dust extraction and vacuum products.

**OUR VISION** To earn the loyalty and respect of our clients and become a competitive advantage for them to achieve success in their profession.

**OUR PROMISE** To develop innovative, revolutionary products that simplify the work of the professional, increasing efficiency, savings and safety.

**OUR ESSENCE** To be distinctive on the market, to be known for reliability, quality, innovation and uphold an excellent reputation.

## GENERAL ORDER INFORMATION

Any returns are to be agreed in advance and must be received within 30 days of receipt of goods.

Latest prices can be downloaded from our website [www.cattaniesam.co.uk](http://www.cattaniesam.co.uk), we will inform customers of new updated prices via email. Please ensure you are signed up to receive these emails, you can sign up on our website.

All prices are exclusive of VAT.

## URGENT ORDERS

When placing an order with us, please clearly state if the order is 'URGENT' and the date required.

## UPDATING PRICES

Cattani reserve the right to alter prices of capital equipment and spare parts without prior notice at any time.

## WARRANTIES

All Cattani Oil-less Compressors are supplied with a 5 year warranty\*, Cattani Turbo Jet units are supplied with a 12 month warranty\*, and Cattani Micro Smart and Turbo Smart units are supplied with a 3 year warranty\*.

All other capital equipment are supplied with our 12 month warranty\*. All warranties begin from the date of sale and exclude tubing. \*Subject to Terms and Conditions of servicing schedule.

## EXTENDED WARRANTIES

Extended warranties can now be purchased with the following:

- AC100, AC200, AC300, AC400 and AC600 range of Compressors extending the warranty by 2 years\* to 7 years total.
- Micro Smart, Turbo Smart and Turbo Smart 2V Systems extending the warranty by 2 years\* to 5 years total.

Please Note: Extended Warranties must be purchased with the above units, they cannot be purchased after initial sale.

\*Subject to Terms and Conditions of servicing schedule, proof may be required.

## LOOKING AFTER YOUR SYSTEM

Cleaning, disinfection and maintenance of your system is essential to ensure it continues running as expected and is a requirement of the product warranty. Cattani recommend the use of their Magnolia cleaning products to cleanse and disinfect their units, use of other cleaning products will void the warranty.

For our complete Warranty and Trading Terms and Conditions please see the last page of this Price List.

# BUYERS GUIDE

## OIL LESS COMPRESSORS

	Product Name	No of Surgeries
Single cylinder compressors	AC100	1
2 cylinder compressors	AC200	3
3 cylinder compressors	AC300	4
2 cylinder tandem motor compressors	AC400	6
3 cylinder tandem motor compressors	AC600	9
Hospital compressor systems	AC900	14
	AC1200	19
	AC1800	28
	Large clinic / custom built	50 – 400+

## COMBINED SYSTEMS

Single & Multiple surgery combined systems	Power Station 1	1
	Power Station 2	2-4

## SUCTION SYSTEMS

Mobile aspirators	Aspi Jet 6	1
	Aspi Jet 7	1
	Aspi Jet 8	1
	Aspi Jet 9	1
Single surgery suction systems (with amalgam separation)	Turbo Jet 1	1
	Turbo Jet Compact	1
	Micro Smart	1
Multiple surgery suction systems (with amalgam separation)	Turbo Smart 'A'	2
	Turbo Smart 'B'	4
	Turbo Smart 2V	up to 4
	Turbo Smart HP	up to 4
	Turbo Smart 'B' Tandem	up to 8
	Turbo Smart 2V Tandem	
	Turbo Smart 'B' Triple	up to 12
	Turbo Smart 2V Triple	
Maxi Smart	up to 15	
Large Clinics	8 Surgery	8
	12-24 Surgery	12 – 24
	Custom Built Modular Systems	30 – 400+
High performance centralised dry-line aspiration systems	Uni Jet 75 2V	1
	Tecno Jet 2V	2
	Flux Jet 2V	4

# OIL-LESS COMPRESSORS

## HIGH QUALITY, CLEAN, DRY AIR

DELIVERING A MINIMUM OF 50 LITRES / MINUTE PER CHAIR\*

Cattani's range of compressors produce clean, dry, oil-less air, protecting the dental unit, rotary instruments, staff and patients alike in modern and demanding practices.

Cattani compressors deliver both high quality and reliability to the end user, our competitive prices mean you can get the system you need at the best price. All compressors are hand built and quality checked at every stage of production.

Our compressor receivers are coated internally with BioCote® Silver Ion Technology which delivers highly effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection, Guaranteed. The exterior is coated with an electrostatic paint.

Cattani use the simplest drying system which has a self-purging drying column, requiring minimum maintenance.

We have a full range of oil-less compressors, from single surgery to bespoke hospital systems.

Cattani also supply compressors for use with milling machines which can run up to 10 bar.

All our compressors are available to purchase with sound reducing hoods, our AC100, AC200 and AC300 compressors can be fitted with a sound reducing cabinet which reduces noise levels to an impressive 52dB(A).

**All Cattani Compressors are supplied with a 5 year warranty\*.**  
**An additional 2 year warranty\* can now also be purchased,**  
**increasing the warranty from 5 to 7 years.**

\* Cattani compressors when correctly specified will deliver the minimum requirements of 50 Litres / minute per chair (at 5 bar pressure) when running simultaneously. Warranty is subject to T&Cs of servicing schedule, additional 2 year warranty must be purchased with the unit at point of sale.

BioCote® Silver Ion Technology

delivers highly effective protection against microbes such as bacteria and mould

### HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES?

THIS IS HOW:

**Constant research:** this lets us apply the latest technology in all of our products and solutions.

**We enhance performance:** electronic and information technology allow us to increase the performance and reliability of our products.

**We reduce costs:** less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

**We reduce environmental impact:** we save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

UK

AC model = with dryer AC Q model = with dryer & hood (\*) NHS Compliant

Sound pressure level tested according to ISO regulation 3746-1979(E). Parameters D=1.5-background noise<38dB(A)-instrument: Brüel and Kjær type 2232. Asynchronous motors are manufactured according to IEC-EN-60034 regulations -1 (2006-5).

## Sterile / Bacterial Filters for Compressors

Recommended by Cattani

Medical sterile filter for  
compressor outlet  
**A30032MS**

Medical sterile filter for compressor outlet  
DOP efficiency >99.9999% as specified in HTM 02-01  
Particle removal 0.01 micron  
Autoclavable filter element (100 sterilisations)

Mounting kit for A30032MS  
**MBK3022**

Mounting kit for A30032MS filter housing

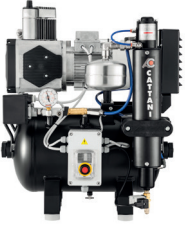

## OIL-LESS COMPRESSORS SINGLE SURGERY

## 1 SURGERY

**AC100 (service kit requirement: 'SERV-AIR1-A' / 'SERV-AIR1-B')** All compressors are 1~, 3~ is available on request.

Receivers are coated with BioCote® Silver Ion Technology which delivers highly effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection, Guaranteed.

Cattani compressors when correctly specified will deliver the minimum requirements of 50 litres/minute per chair (at 5bar pressure) when running simultaneously.

 Safety valve atmospheric discharge brass safety relief valve  
 Designed to achieve in excess of -20° dew point (atmospheric)  
 3/8" BSP pharmaceutical test point and line pressure gauge

## OIL-LESS COMPRESSORS CUSTOM BUILT

### Large Clinics 3~ only

Custom-built to client specifications - please contact Cattani ESAM (UK) Ltd to discuss your large clinic requirements  
 For large clinics, hospitals & universities  
 Modular design to suit various space & access requirements  
 Full diagnosis & running information in the plant area via a touchscreen  
 Remote access to control panel, for off-site monitoring or by clinic engineering staff

Our Blok-Jet systems (available with 6, 9, 12 compressor heads depending on installation specification) which are electronically adjustable to run the adequate number of compressor heads based upon pressure requirements, ensure utmost flexibility and at the same time maximum security against plant stoppages from compressor failure. It is in fact possible to replace any of the compressor heads without stopping the plant. The plant automatically cleans 1:1e drying system and expels humidity. Blok-Jet systems are particularly suitable for hospital, food industry and pharmaceutical plants.

### Custom-Built Modular Systems

Built to fit space  
 Refrigerating cycle drier  
 Control panel fitted with PLC & touch screen

No. 4 six cylinder compressor head  
 Air tank 200 litres

Code	Description	Hz	KW	V		Amp. Δ	Ass. Y	Airflow @ 5 BARS*
				Δ	Y			
H10620	Blok-Jet 6 units / 3 cylinder compressor heads	50	9	230 / 400		36	21	Nlt/min 1260
		60	10,5	265 / 460		37,8	21,6	Nlt/min 1500

		60	21,6	265 / 460		43,2	43,2	Nlt/min 3000
Tension tolerance: 10%		(*) Without dryer						

Full HTM 2022 systems are available on request, HTM 2022 supplement 1:

- Provides advice and guidance on the specific requirements of Dental Air Systems for use in dental hospitals, dental teaching schools, clinics and surgeries and primary care trusts (PCT)
- The supplement should be followed for all new installations and refurbishment, existing installations should be assessed for compliance with this supplement
- The guidance should generally be followed for these systems and must not be confused with HTM 01-02 for medical air and gasses or European pharmacopeia documents

-20°C Dew point is more than adequate for dental air and 60% diversity is acceptable over 10 surgeries but 100% should be considered for teaching facilities.

## OIL-LESS COMPRESSORS FOR USE WITH MILLING MACHINES

These compressors have upgraded parts which allow them to run up to 10bar, this makes it possible for the compressor to deal with the extra stresses when used with milling machines. Available in 1~ and 3~.

Receivers are coated with BioCote® Silver Ion Technology which delivers highly effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection, Guaranteed.

### AC310

**Includes:**  
**Dryer**

**013310 (\*1) 1~**  
**013313 (\*1) 3~**

No. of Cylinders: 3 cylinder  
No. of Dryers: 1 dryer  
Output power: 1~ 50Hz 1.5kW - 10.2A  
3~ 50Hz 1.5kW - 3.7A  
Produced air: 165N l/min (pressure at 8 real bar)  
Air Tank Volume: 45 Litres  
Noise level: 73.6dB(A)  
Dimensions: W620 D520 H750 (mm)  
Net Weight: 64kg

### AC410

**Includes:**  
**Dryers**

**013410 (\*1) 1~**  
**013413 (\*1) 3~**

No. of Cylinders: 4 cylinder  
No. of Dryers: 2 dryers  
Output power: 1~ 50Hz Total 2.4kW - 15.4A  
3~ 50Hz Total 3kW - 7.2A  
Produced air: 215N l/min (pressure at 8 real bar)  
Air Tank Volume: 100 Litres  
Noise level: 73dB(A)  
Dimensions: W1155 D550 H745 (mm)  
Net Weight: 112kg

### AC610

**Includes:**  
**Dryers**

**013510 (\*1) 1~**  
**013513 (\*1) 3~**

No. of Cylinders: 6 cylinder  
No. of Dryers: 2 dryers  
Output power: 1~ 50Hz Total 3kW - 22A  
3~ 50Hz Total 3kW - 7.4A  
Produced air: 330N l/min (pressure at 8 real bar)  
Air Tank Volume: 150 Litres  
Noise level: 74dB(A)  
Dimensions: W1320 D590 H890 (mm)  
Net Weight: 137kg

### AC910

**Includes:**  
**Dryers**

**013578 (\*1) 3~**

No. of Cylinders: 9 cylinder  
No. of Dryers: 3 dryers  
Output power: 3~ 50Hz Total 4.5kW - 11.1A  
Produced air: 495N l/min (pressure at 8 real bar)  
Air Tank Volume: 300 Litres  
Noise level: 75dB(A)  
Dimensions: W1800 D810 H1000 (mm)  
Net Weight: 260kg

# COMBINED SYSTEM SINGLE & MULTIPLE SURGERY

## Power Station

3 year guarantee (Micro Smart and AC200 Compressor / Turbo Smart and AC300 Compressor - subject to terms & conditions of service schedule)

**Power Station 1**  
**1 Surgery**  
**073500**

No. of Surgeries: 1 surgery  
 No. of Cylinders: 2 cylinder compressor  
 No. of Dryers: 1 dryer  
 Output power: 1.12kW - 6.3A (suction) 1.2kW - 7.7A (compressor)  
 Produced air: 160N l/min (pressure at 5 real bar)  
 Air Tank Volume: 30 Litres  
 Noise level: 57.5dB(A)  
 Dimensions: W727 D577 H1583 (mm)  
 Net Weight: 220kg  
 Gross Weight: 270kg

**Power Station 2**  
**2 - 4 Surgeries**  
**073520**

No. of Surgeries: 2 - 4 surgeries  
 No. of Cylinders: 3 cylinder compressor  
 No. of Dryers: 1 dryer  
 Output power: 1.5kW - 9A (suction) 1.5kW - 10.2A (compressor)  
 Produced air: 238N l/min (pressure at 5 real bar)  
 Air Tank Volume: 45 Litres  
 Noise level: 54dB(A)  
 Dimensions: W760 D650 H1935 (mm)  
 Net Weight: 270kg  
 Gross Weight: 320kg

**Extended Warranty**  
**EXT-SMART**

Optional additional 2 Year Warranty must be purchased at point of sale with Power Station systems, cannot be added on after purchase date. Subject to servicing, proof may be required.

**Extended Warranty**  
**EXT-COMP3**

For spare parts and accessories please see:

Power Station 1: Micro Smart on page 22 and AC200 compressor on page 9.  
 Power Station 2: Turbo Smart on page 24 and AC300 compressor on page 10.

All relevant service kits can be found on pages 34-37.

Parameters D=1.5-background noise<38dB(A)-instrument: Brüel and Kjær type 2232.

## MOBILE SUCTION SYSTEMS SINGLE SURGERY

### Aspi Jet

Main suction use or, as an emergency back up  
Suction motor is protected with a thermal device

Medical device with CE mark, ident. no. 0434  
Canister level control for motor protection

**Aspi Jet 6**  
**010010**

No. of Surgeries: 1 surgery  
Output power: 0.4kW - 3.1A 230v 50Hz  
Max flow: 1250 l/min  
Max. vacuum level: 140mbar max  
Noise level: 58-62dB(A)  
Dimensions: W530 D420 H760 (mm)  
Net Weight: 32kg  
Gross Weight: 41kg

Canister capacity 4 litres (emptied manually)

**Bacterial & Mercury Vapour  
Exhaust Filter**  
**E11024-HGX**

H14 high efficiency impregnated microfibre element with activated carbon.  
Comes with 32mm push on spigots and includes a vee bracket for wall  
mounting

Recommended to be changed every 12 months

**Aspi Jet 7**  
**010021 (\*1)**

No. of Surgeries: 1 surgery  
Output power: 0.4kW - 3.1A 230v 50Hz  
Max flow: 1250 l/min  
Max. vacuum level: 140mbar max  
Noise level: 58-62dB(A)  
Dimensions: W530 D420 H760 (mm)  
Net Weight: 34kg  
Gross Weight: 43kg

Automatic drainage via electric waste pump

**Aspi Jet 8**  
**010031 (\*1)**

No. of Surgeries: 1 surgery  
Output power: 0.4kW - 3.1A 230v 50Hz  
Max flow: 1250 l/min  
Max. vacuum level: 140mbar max  
Noise level: 58-62dB(A)  
Dimensions: W530 D420 H760 (mm)  
Net Weight: 36kg  
Gross Weight: 47kg

Automatic drainage via electric waste pump  
Manual cold water tumbler filler

**Aspi Jet 9**  
**010041**

No. of Surgeries: 1 surgery  
Output power: 0.4kW - 3.1A 230v 50Hz  
Max flow: 1250 l/min  
Max. vacuum level: 140mbar max  
Noise level: 58-62dB(A)  
Dimensions: W590 D560 H760 (mm)  
Net Weight: 39kg  
Gross Weight: 50kg

Automatic drainage via electric waste pump  
Spittoon assembled on stainless steel moveable arm  
Manual cold water tumbler filler and spittoon rinse

# ASPI-AERO 25

## AEROSOL REMOVAL

### INCORPORATING HEPA H14 FILTER

The Aspi-Aero 25 is a **brand new** extra oral dental suction system for removing aerosols when carrying out aerosol generating procedures (AGPs).

Equipped with a reliable, proven and powerful Cattani Uni-Jet 75 1AC twin vane motor which produces **air speeds of up to 45m/s\***.

Aspi-Aero 25 has a fully adjustable arm which can rotate to provide aspiration from a wide area and a handle on the unit allows for easy maneuverability. This unit can be fitted with two interchangeable attachments, a 25mm nozzle to remove aerosols from a precise area and a shield to collect aerosols and protect from spatter.

Aspi-Aero 25 comes equipped with a **HEPA H14** antibacterial, carbon activated filter with increased surface area to permit high airflow and **moisture separation for liquid collection**, protecting the HEPA filter from water ingress ensuring efficiency is not compromised.

Aspi-Aero 25 can be safely ventilated into the room or exhausted externally dependent on customer preference\*.

The cabinet is coated internally and externally with BioCote® Silver Ion Technology which delivers highly effective protection against microbes such as bacteria and mould.

**Permanent antimicrobial protection. Guaranteed!**

**PERMANENT GUARANTEED ANTIMICROBIAL PROTECTION**

**BioCote® Silver Ion Technology**  
delivers highly effective protection against microbes such as bacteria and mould

Aspi-Aero 25 is supplied with a 2 year warranty\*.

\*Noise level when exhausted externally. Air speed 45m/s using the 25mm nozzle. Stock levels correct at time of printing. Warranty is subject to T&Cs of servicing schedule.

IN STOCK\*

**WARRANTY 2 YEAR\***  
next working day delivery

Noise Level  
**56** dB(A)\*

#### HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES? THIS IS HOW:

**Constant research:** this lets us apply the latest technology in all of our products and solutions.

**We enhance performance:** electronic and information technology allow us to increase the performance and reliability of our products.

**We reduce costs:** less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

**We reduce environmental impact:** we save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

UK

## SUCTION SYSTEMS

### SINGLE SURGERY

1 SURGERY

SEMI-WET

#### Turbo Jet (service kit requirement: '900056')

Complete with ISO4 amalgam separator  
Motor protected by thermal device  
Includes 'Cattani Pulse Cleaner'

# MICRO SMART

## FLOW RATE 900 LITRES/MIN\*

INVERTER DRIVE TECHNOLOGY - USING ONLY THE POWER REQUIRED

Micro Smart has proven itself to be the most flexible, reliable and powerful single surgery, variable speed suction system available, using only the power required reducing power consumption and heat generation.

- Control the power using the keypad: Digital display informs the user of the amalgam container level, operating temperature, and hours worked for accurate servicing.

- 3 programmable vacuum levels to choose from:

-  Low volume for orthodontics / saliva ejection
-  Medium volume for conservation procedures
-  High volume for oral surgery and implantology

- Wi-Fi connection enables professionals to check the following without leaving the surgery via the free Cattani App:

- Status (including running hours, machine temperature and current vacuum setpoint)
- Alarms (including amalgam container level)
- Servicing and maintenance requirements
- Select vacuum level required
- Request technical support

TUV certified 98.9% amalgam retention.

**Micro Smart is supplied with a 3 year warranty\*.**

**An additional 2 year warranty\* can now also be purchased, increasing the warranty from 3 to 5 years.**

\* Maximum 900L/min at 210mbar.

Warranties are subject to Terms and Conditions of servicing schedule, additional 2 year warranty must be purchased with the unit at point of sale.

### HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES?

THIS IS HOW:

**Constant research:** this lets us apply the latest technology in all of our products and solutions.

**We enhance performance:** electronic and information technology allow us to increase the performance and reliability of our products.

**We reduce costs:** less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

**We reduce environmental impact:** we save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

# TURBO SMART & 2V

## VARIABLE SPEED

### USING ONLY THE POWER REQUIRED

Turbo Smart is a powerful, variable speed suction system, ideal for conservation and surgical applications providing high airflow and high vacuum power. It is supplied for two surgery use and is upgradable to four surgeries if required.

It has a programmable vacuum level which automatically alters vacuum on demand and responds to any change in use from the surgeries.

Turbo Smart also features Cattani's multi-function digital display which informs the user of the vacuum level, temperature, servicing requirements, amalgam separation, fault diagnosis and programming.

Sound proof cabinet is available which can reduce noise levels to an impressive 51.6 dB (A).

Turbo Smart 2V is the ideal direct replacement for any wet-ring system. With all the same features as the Turbo Smart including built-in amalgam separation, with the addition of an extremely powerful Uni Jet 75 2V motor.

Turbo Smart 2V is a very reliable variable speed suction system and can run up to 4 surgeries continuously, producing 270mbar negative pressure.

These systems can connect wirelessly enabling professionals to check and adjust suction without leaving the surgery.

TUV certified 98.1% amalgam retention.

**Turbo Smart and Turbo Smart 2V are both supplied with a 3 year warranty\*. An additional 2 year warranty\* can now also be purchased, increasing the warranty from 3 to 5 years.**

\* Warranties are subject to Terms and Conditions of servicing schedule, additional 2 year warranty must be purchased with the unit at point of sale.

# NEW TURBO SMART HP HIGH PERFORMANCE

## USING ONLY THE POWER REQUIRED

Turbo Smart HP is our BRAND NEW high power, variable speed suction system, ideal for conservation and surgical applications providing high airflow and high vacuum power for up to 4 surgeries. Featuring a pair of Cattani's new extremely powerful, performance enhanced Uni Jet 75 motors.

This new Smart HP system can run up to 4 surgeries continuously, producing 340mbar negative pressure.

With all the same features as our Turbo Smart and 2V systems including:

- Programmable vacuum level which automatically alters vacuum on demand and responds to any change in use from the surgeries
- Built-in amalgam separator
- Cattani's multi-function digital display which informs the user of the vacuum level, temperature, servicing requirements, amalgam separation, fault diagnosis and programming.

Turbo Smart HP is the ideal direct replacement for any wet-ring system.

This system can connect wirelessly enabling professionals to check and adjust suction without leaving the surgery.

TUV certified 98.1% amalgam retention.

**Turbo Smart HP is supplied with a 3 year warranty\*.**

\* Warranties are subject to Terms and Conditions of servicing schedule.

### HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES?

THIS IS HOW:

**Constant research:** this lets us apply the latest technology in all of our products and solutions.

Maxi Smart is a totally new concept in dental vacuum for larger installations. The system uses flow target technology unique to Cattani.

Flow target guarantees 300 litres per minute air flow at every suction tip regardless of main pipework diameter and length.

This is an ideal replacement for existing systems as well as for new projects. Maxi Smart can be paralleled together for larger installations, variable speed motors with inverter control keeps running costs to a minimum.

**Custom-Built Modular Systems**

30-400+ surgeries  
Horizontal or vertical to fit space

Open or with cover & ventilated or with refrigerating & heating system

Open

Typical semi wet vacuum layout

Full HTM 2022 systems are available on request

HTM 2022 Supplement 1:

- Provides advice and guidance on the specific requirements of Dental Vacuum Systems for use in dental hospitals, dental teaching schools, clinics and surgeries and primary care trusts (PCT)
- The supplement should be followed for all new installations and refurbishment, existing installations should be assessed for compliance with this supplement
- The guidance should generally be followed for these systems, 300 litres per minute at the large bore cannula (15mm ± 1mm) and a maximum vacuum of 18kPa (180mbar)
- ISO 10637
- States a minimum of 250 litres per minute at a large bore cannula (15mm ± 1mm) and a maximum vacuum of 25kPa (250mbar)
- 60% diversity in vacuum is acceptable over 10 surgeries but 100% should be considered for teaching facilities.

	<b>Accessories for Uni Jet 75</b> <b>020240</b>	Includes: silencer, rubber feet, D.30 spiral tube, aluminium elbow, D.30 straight union, McAlpine straight fitting
	<b>Accessories for Uni Jet 75 2V High performance</b> <b>020248</b>	Includes: 4 x rubber feet, silencer, D.30 spiral tube, aluminium elbow
	<b>Bacterial &amp; Mercury vapour exhaust filter</b> <b>E11024-HGX</b>	H14 high efficiency impregnated microfibre element with activated carbon. Comes with 32mm push on spigots and includes a vee bracket for wall mounting  Recommended to be changed every 12 months
	<b>Mini control panel</b> <b>020270</b>	For 1 Uni-Jet 75 or 1 Uni-Jet 75 2V 230v 24v low voltage switching W300 D170 H400 (mm)

# ESAM MOTORS

## SIDE CHANNEL BLOWERS

### HIGH QUALITY ASPIRATORS FOR VARIOUS APPLICATIONS

ESAM motors are manufactured in die-cast aluminium alloy, this ensures high performance, reduces production costs, increases output and fosters quality uniformity.

ESAM motors are built for industrial use and renowned for their reliability.

Standard motors are two pole, totally enclosed air cooled, continuous duty rated, IP55 protected, insulation class F, and are built according to regulations CEI EN 60034-1:2011-03 (CEI 2-3).

Motors are protected by a thermal device.

The standard side channel blowers are designed to handle clean air up to a maximum of 40°C. However, Cattani can supply special units made to individual specification if required.

#### HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES?

##### THIS IS HOW:

**Constant research:** this lets us apply the latest technology in all of our products and solutions.

**We enhance performance:** electronic and information technology allow us to increase the performance and reliability of our products.

**We reduce costs:** less maintenance and energy costs mean on a cost-benefit analysis we are always the most economical.

**We reduce environmental impact:** we save 50% on raw materials in the production stage and our customers save between 30% and 50% on electrical consumption thanks to inverter drive technology.

210904	A/Sep orifice plate small O-Ring	210950	O-Ring for separator discharge valve (1 O-ring)
210909	Mini-sep entry O-Ring (6 O-rings)	210969	ISO 18 O-Ring for amalgam separator (1 O-ring)
210932	O-Ring for low voltage pump body (1 O-ring)	210976	ISO 18 O-Ring for amalgam separator (1 O-ring)
210934	O-Ring for 16mm tip support union (2 O-rings)	211600	T Jet 1&2 / Smart centrifugal sep discharge valve
210941	Waste outlet O-Ring (1 O-ring)	250498	Smart recirculator spring
210943	Amalgam sep pot O-Ring ISO (1 O-ring)		

**Micro Smart & Micro Smart Cube - Complete Kit**

**900050**

200206	ISO 6 Weight cage	210947	ISO 18 O-Ring (8 O-rings)
210816	Smart recirculator diaphragm	210949	A/Sep orifice plate large O-Ring (1 O-ring)
210904	A/Sep orifice plate small O-Ring	210950	O-Ring for separator discharge valve (1 O-ring)
210909	Mini-sep entry O-Ring (6 O-rings)	210969	ISO 18 O-Ring for amalgam separator (1 O-ring)
210932	O-Ring for low voltage pump body (1 O-ring)	210976	ISO 18 O-Ring for amalgam separator (1 O-ring)
210934	O-Ring for 16mm tip support union (2 O-rings)	211600	T Jet 1&2 / Smart centrifugal sep discharge valve
210941	Waste outlet O-Ring (1 O-ring)	250498	Smart recirculator spring
210943	Amalgam sep pot O-Ring ISO (1 O-ring)		
043132	Amalgam container for Micro Smart	224187	Brass float ISO6
201547	Filter for Micro Smart inlet	224424	ISO 18 by-pass valve seat (brass and rod)

This kit is identical to the 900051 above with these additional items as highlighted

## SERVICE KITS

## SUCTION SYSTEMS

## Turbo Smart &amp; Turbo Smart Cube (Annual Kit)

900053

041422	Tubing ISO 19 D.17.5mm special (1m)	210942	O-Ring ISO 18 lid seal (1 O-ring)
043135	Turbo Smart amalgam container and lid	210943	Amalgam sep pot O-Ring ISO (1 O-ring)
200207	ISO 18 Weight cage	210947	ISO 6/18 A/Sep elbow O-Ring (8 O-rings)
201544	Filter ISO 18 amalgam sep & Turbo Smart sep	210969	ISO 6/18 Waste outlet cover O-Ring (1 O-ring)
202551	Turbo Smart non-return valve retainer	210973	ISO 18 centrifugal sep base seal (1 O-ring)
202580	ISO 18 cone at bottom of A/Sep	210975	O-Ring ISO 18 air inlet seal (1 O-ring)
210816	Smart recirculator diaphragm	210976	Vacuum inlet point O-Ring (1 O-ring)
210824	Turbo Smart non-return valve	210980	Smart sep O-Ring sep to Uni 75 (2 O-rings)
210909	Mini sep entry O-Ring (2 O-rings)	224185	Brass float valve ISO 18
210915	O-Ring ISO 18 orifice plate seal (1 O-ring)	224424	ISO 18 by-pass valve seat (brass and rod)
210918	Turbo Smart waste O-Ring (1 O-ring)	250498	Smart recirculator spring
210932	O-Ring low voltage pump body (1 O-ring)	250552	ISO 18 float spring
210934	O-Ring 16mm tip support union (2 O-rings)	170.4474	Thermistor 4R 9.5A

We also recommend purchasing **230206** Heat resistant tubing (between air/water separator and vacuum motor) pre-cut length with this service kit

## Turbo Smart 2v (Annual Kit)

900052

041422	Tubing ISO 19 D.17.5mm special (1m)	210943	Amalgam sep pot O-Ring ISO (1 O-ring)
043135	Turbo Smart amalgam container and lid	210947	ISO 6/18 A/Sep elbow O-Ring (8 O-rings)
200207	ISO 18 Weight cage	210969	ISO 6/18 Waste outlet cover O-Ring (1 O-ring)
201544	Filter ISO 18 amalgam sep & Turbo Smart sep	210973	ISO 18 centrifugal sep base seal (1 O-ring)
202551	Turbo Smart non-return valve retainer	210975	O-Ring ISO 18 air inlet seal (1 O-ring)
202580	ISO 18 cone at bottom of A/Sep	210976	Vacuum inlet point O-Ring (1 O-ring)
210816	Smart recirculator diaphragm	210980	Smart sep O-Ring sep to Uni 75 (2 O-rings)
210824	Turbo Smart non-return valve	224185	Brass float valve ISO 18
210909	Mini sep entry O-Ring (2 O-rings)	224424	ISO 18 by-pass valve seat (brass and rod)
210915	O-Ring ISO 18 orifice plate seal (1 O-ring)	230212	Heat resistant tubing (precut)
210918	Turbo Smart waste O-Ring (1 O-ring)	250498	Smart recirculator spring
210932	O-Ring low voltage pump body (1 O-ring)	250552	ISO 18 float spring
210934	O-Ring 16mm tip support union (2 O-rings)	170.4474	Thermistor 4R 9.5A
210942	O-Ring ISO 18 lid seal (1 O-ring)		

This kit is identical to the 900053 above with these additional items as highlighted

## Turbo Smart HP (Annual Kit)

900059

041422	Tubing ISO 19 D.17.5mm special (1m)	210943	Amalgam sep pot O-Ring ISO (1 O-ring)
043135	Turbo Smart amalgam container and lid	210947	ISO 6/18 A/Sep elbow O-Ring (8 O-rings)
200207	ISO 18 Weight cage	210969	ISO 6/18 Waste outlet cover O-Ring (1 O-ring)
201544	Filter ISO 18 amalgam sep & Turbo Smart sep	210973	ISO 18 centrifugal sep base seal (1 O-ring)
202551	Turbo Smart non-return valve retainer	210975	O-Ring ISO 18 air inlet seal (1 O-ring)
202580	ISO 18 cone at bottom of A/Sep	210976	Vacuum inlet point O-Ring (1 O-ring)
210816	Smart recirculator diaphragm	210980	Smart sep O-Ring sep to Uni 75 (2 O-rings)
210824	Turbo Smart non-return valve	224185	Brass float valve ISO 18
210909	Mini sep entry O-Ring (2 O-rings)	224424	ISO 18 by-pass valve seat (brass and rod)
210915	O-Ring ISO 18 orifice plate seal (1 O-ring)	230207	Heat resistant tubing (precut 300mm)
210918	Turbo Smart waste O-Ring (1 O-ring)	230209	Heat resistant tubing (precut 500mm)
210932	O-Ring low voltage pump body (1 O-ring)	250498	Smart recirculator spring
210934	O-Ring 16mm tip support union (2 O-rings)	250552	ISO 18 float spring
210942	O-Ring ISO 18 lid seal (1 O-ring)	170.4474	Thermistor 4R 9.5A

This kit is identical to the 900053 above with these additional items as highlighted

**SERVICE KITS**

**SUCTION SYSTEMS**

**Turbo Smart, Turbo Smart 2V & Turbo Smart Cube (5 Year Kit)**

**900058**

041422	Tubing ISO 19 D.17.5mm special (1m)	210947	ISO 6/18 A/Sep elbow O-Ring (8 O-rings)
043135	Turbo Smart amalgam container and lid	210969	ISO 6/18 Waste outlet cover O-Ring (1 O-ring)
200207	ISO 18 Weight cage	210973	ISO 18 centrifugal sep base seal (1 O-ring)
201544	Filter ISO 18 amalgam sep & Turbo Smart sep	210975	O-Ring ISO 18 air inlet seal (1 O-ring)
202551	Turbo Smart non-return valve retainer	210976	Vacuum inlet point O-Ring (1 O-ring)
202580	ISO 18 cone at bottom of A/Sep	210980	Smart sep O-Ring sep to Uni 75 (2 O-rings)
210816	Smart recirculator diaphragm	224185	Brass float valve ISO 18
210824	Turbo Smart non-return valve	224424	ISO 18 by-pass valve seat (brass and rod)
210909	Mini sep entry O-Ring (2 O-rings)	250498	Smart recirculator spring
210915	O-Ring ISO 18 orifice plate seal (1 O-ring)	250552	ISO 18 float spring
210918	Turbo Smart waste O-Ring (1 O-ring)	170.4474	Thermistor 4R 9.5A
210932	O-Ring low voltage pump body (1 O-ring)	203910	Turbo Smart Impellor
210934	O-Ring 16mm tip support union (2 O-rings)	203909	Turbo Smart Pump Column
210942	O-Ring ISO 18 lid seal (1 O-ring)	230165	D.38 Wire Spiral Exhaust Tubing (0.3m)
210943	Amalgam sep pot O-Ring ISO (1 O-ring)		

This kit is identical to the 900053 on the previous page with these additional items as highlighted

**Turbo HP 2 & 3**

**900060**

041422	Tubing ISO 19 D.17.5mm special (1m)	210943	Amalgam sep pot O-Ring ISO (1 O-ring)

040647	Terminal 16mm type 'B'
040871	D.16mm silicone tube (1.5m length)
040901	D.11mm silicone tube (1.5m length)
201051K	Thread cap & seal kit
201515	Filter for 0055 tip support (5514)
210820	Diaphragms for 0055 (5510) (Pack of 2)
210933	O-ring for 11mm tip support union
210934	O-ring for 16mm tip support union
202451	Pistons for 0055 tip support (Pack of 2)

## CONSUMABLES

## MAGNOLIA HYGIENE CLEANING

Recommended by Cattani - Comprehensive range of disinfectant & sanitising products for cleaning dental machines, equipment & surgery surfaces

### Puli Jet Plus 2.0 (4 x 1 litre bottle) 060922

Disinfects, deodorises and cleans all dental aspirators (wet, semi-wet and dry line), does not contain aldehydes and phenol. 1 litre makes up to 125 litres of disinfectant or 250 litres of cleaner.

**WHEN TO USE:** Every evening.

**HOW TO USE:**

1. Shake the bottle. Then unscrew red cap slightly.
2. Squeeze bottle to distribute 10ml of liquid to top container.
3. To mix, fill the 'Pulse Cleaner Bucket' with warm water (approx temp 50°C) up to the third marker, then unscrew the red cap on the Puli Jet bottle fully and pour the Puli Jet into the 'Pulse Cleaner bucket'.

**GENERAL CLEANING:** We recommend that you cleanse the aspiration system every evening, at the end of work. For this, fill the Pulse Cleaner Bucket up to the third marker with warm water (approx temp 50°C) and add 10ml of Puli Jet solution.

**DISINFECTION:** We recommend to disinfect the aspiration system once a week with a higher concentrate of Puli Jet. For this, fill the Pulse Cleaner Bucket up to the third marker with warm water (approx temp 50°C) and add 20ml of Puli Jet solution.

Pour any excess down the spittoon.

**RANGE OF ACTION:** Detergent disinfectant with bactericide, fungicide, virucide (HBV, HCV, HIV) and tuberculocide, proven effective in less than 15 minutes. Conforms to EN14476. Anti-scale.

\*Class IIa medical device CE 0425. EN14476. EN14563. EN14562. EN14561. EN13624. EN13727.

### Puli Jet Classic (4 x 5 litre bottle) 040715

Cleans, sanitises and deodorises dental suction units. 5 litres makes up to 100 litres of cleaner.

**WHEN TO USE:** Every evening.

**HOW TO USE:**

- 1) Fill the 'Pulse Cleaner Bucket' with warm water (approx temp 50°C) up to the third marker (second down from the top), then measure out 4 pumps (each pump is 30ml, 4 pumps = 120ml) of Puli Jet Classic cleaner and pour it into the 'Pulse Cleaner bucket'.

2) Using the terminals, aspirate the mixed Puli Jet Classic solution from the Pulse Cleaner through the equipment.

Pour any excess down the spittoon.

**RANGE OF ACTION:** Detergent odour repellent antibacterial.

### Puli Jet Classic Dosing Pump Kit 040837

Dosing kit for 5 litre Puli-Jet Classic only.

### Pulse Cleaner 040720

Pulse Cleaner is a turbulence-maker.

To prepare the Puli Jet solution, pour the concentrated product into warm water (approx temp 50°C) and then place the terminals on the pistons.

The cleansing aspiration will start without any further operation.

The solution left in the container can be used to sanitize the spittoon bowl.

Do not rinse the aspirator; do not turn on the spittoon-rinsing tap: Puli Jet Plus will go on sanitizing and dissolving blood and mucus all night.

Comes with 1 x 16mm & 1 x 11mm connections and reducers for smaller terminals.

### Care Kit 040CARE

Includes 'Pulse Cleaner', Puli Jet Plus, 2 brushes and instructions

## MAGNOLIA HYGIENE CLEANING

Recommended by Cattani - Comprehensive range of disinfectant & sanitising products for cleaning dental machines, equipment & surgery surfaces

### Sanitising Antifoaming Tablets (1 x box - 50 tabs / box) **040825**

### Sanitising Antifoaming Tablets (10 boxes) **040826**

Stops foam build up, which can cause an interruption in the aspiration. 50 per box.

**APPLICATION:** Single surgery and centralised suction systems.

**WHEN TO USE:** Every day, after cleaning and disinfection.

**HOW TO USE:** At the beginning or end of every working day, after cleaning, place 1 or 2 tablets inside the tip support filter or filter housing on the pump, tablet action lasts the entire day.

**RANGE OF ACTION:** Antifoam action disinfectant bactericide and candidicide.

\*Class IIa medical device CE 0425. EN13727. EN13624.

### Lubri Jet Spray (1 x 150ml can) **040735**

### Lubri Jet Spray (4 x 150ml can) **040737**

Silicone spray for lubricating surfaces including diaphragms, O-rings, plastic materials and metal, useful for treating clamp hinges and scissors before placing in autoclave. Silicone lubricant with non-flammable ozone-friendly propellant, contains high-quality silicone oil and is dust-repellent.

**APPLICATION:** Surfaces exposed to friction, rubber o-rings, plastic and metal materials.

**WHEN TO USE:** When required.

**HOW TO USE:** Ready-to-use, Shake before use, Clean and wipe the parts to be lubricated, then spray.

### Lubri Jet Drop (1 x 30ml bottle) **040726**

### Lubri Jet Drop (4 x 30ml bottle) **040727**

Silicone based liquid for lubricating surfaces including diaphragms, O-rings, plastic materials and metal, useful for treating clamp hinges and scissors before placing in autoclave. Put a drop onto the instrument and wipe off excess before putting in autoclave. Silicone lubricant for the periodic lubricant of the hinge of pincers, scissors and other instruments of the dental surgery. Contains high-quality silicone oil and is dust-repellent.

**APPLICATION:** Surgical instruments with the parts subjects to friction (scissors, pincers, etc).

**WHEN TO USE:** When required.

**HOW TO USE:** Put a drop on the parts under friction. To be used on clean and dry instruments before sterilization.

### Eco Jet Wipes (6 x tubs - 160 tissues / tub) **040770**

High level disinfecting wet wipes for surface cleansing.

**APPLICATION:** Surface wipe (lemon scented).

**WHEN TO USE:** After each patient.

**HOW TO USE:** Ready to use. Wipe surface clean with gentle pressure. Self drying.

**RANGE OF ACTION:** Detergent disinfectant with bactericide, fungicide, virucide (HBV, HCV, HIV) and tuberculocide, proven effective in less than 15 minutes. Conforms to EN14476.

\*Contains <10% alcohol. Class IIa medical device CE 0425. EN14476. EN13697. EN14348. Skin patch test - Non-irritant.

### Eco Jet Spray (4 x 500ml bottle + nozzle) **040745**

High level disinfecting detergent surface spray.

**APPLICATION:** Surface spray (lemon scented).

**WHEN TO USE:** After each patient.

**HOW TO USE:** Ready to use. Spray onto surface from 20-30cm. Wipe with dry sterile cloth after use.

**RANGE OF ACTION:** Detergent disinfectant with bactericide, fungicide, virucide (HBV, HCV, HIV) and tuberculocide, proven effective in less than 15 minutes. Conforms to EN14476.

\*Contains <10% alcohol. Class IIa medical device CE 0425. EN14476. EN13697. EN14348. Skin patch test - Non-irritant.

## DENTAL LABORATORY

## DUST EXTRACTION SYSTEMS

## Lab Cube

Recommended for dust extraction

Variable speed dust extraction for dental laboratories

**Lab Cube 2**  
**036002 (\*1)**

Uni-Jet 25 fitted with VSD control panel, software, keypad and dust separator with bag filter.  
Suggested for up to 2 work stations (40m<sup>3</sup>/h each work station).

Output power 0.9 kW – 3,9 A  
Maximum flow 80 m<sup>3</sup>/h operating flow rate for each stock holder 40 m<sup>3</sup>/h  
Sound pressure level with canalized air 55.7 dB (A)  
Approx. dimensions W= 420 mm D= 350mm H= 470 mm

**Lab Cube 3**  
**036003 (\*1)**

Fitted with 2 Uni-Jet 40 motors, VSD control panel with software.  
Suggested for up to 4 work stations (40 m<sup>3</sup>/h each work station).

Output power 1.3 kW- 6 A  
Maximum flow 160m<sup>3</sup>/h operating flow rate for each stock holder 40 m<sup>3</sup>/h  
Sound pressure level with canalized air .... dB (A)  
Approx. dimensions W= 500 mm D= 370mm H= 650 mm

## Aspi Alu &amp; Arm

Recommended for alumine treatments

Motor fitted with thermal protector

**Aspi Alu & Arm**  
**050077 (\*1)**

1 work place  
Uni Jet 75 aspiration unit  
1~ output power 0.4kW-3.1A  
Maximum flow 900 l/min  
Maximum operating head for continuous service 1300mm H2O  
Sound level 66dB(A)  
W=450mm D=350mm H=760mm + arm  
Net Weight=32kg Gross Weight=43kg

## Mono Labor

Mobile dust extraction aspirator

Motor protected by thermal device

**Mono Labor**  
**050050 (\*1)**

1 work place  
Arm available on request  
1~ output power 0.4kW-3.1A  
Maximum flow 1250 l/min  
Maximum operating head for continuous service 1300mm H2O  
Sound level 67.5dB(A)  
W=510mm D=270mm H=490mm

## Aspi Labor

Mobile dust extraction aspirator

Motor protected by thermal device

**Aspi Labor**  
**050010 (\*1)**

1 work place  
1~ output power 0.4kW-3.1A  
Maximum flow 1250 l/min  
Maximum operating head for continuous service 1300mm H2O  
Sound level 67.5dB(A)  
W=450mm D=350mm H=760mm + arm  
Net Weight=32kg Gross Weight=43kg

	Replaceable Paper Dust Bag Container Ø30mm <b>050100</b>	W=180mm D=130mm H=360mm

# ENGINEERS KIT

## BE THE BEST. BE PREPARED

INCLUDES ALL THE BASIC COMPONENTS\*

The Engineers Kit has been designed to incorporate all the basic components as a first line of repair to help get your customer working again in the first visit\*, making the kit especially useful for breakdowns. The kit contains a selection of O-rings, Fuses, Capacitors, Plastics, Sensors and Instructions.

040735	Lubri Jet Silicone Spray	220793	Recirculation fitting Turbo 1
040810	Brush No.18 Small cleaning	224961	Waste outlet valve ISO4
040820	Brush No19 Large cleaning	240317	Filter Element for 0040 filter
041402	D.11.7 Grey Special Medical Tube (1m)	250547	Spring for ISO 4 waste outlet valve
041422	D.17.5 Grey Special Medical Tube (1m)	550678	Pistons for 0055 Tip Support Per pair
111819GR	Torpedo buttons for 11/B tip support (Grey)	CAPENG	Capacitor kit for ENG-KIT
180728	Ribbon cable AC56 to main PCB (10 pin)	FLOW-GAUGE	Vacuum flow gauge (Cattani UK)
180969	AC86 PCB TSmart & HP A/Sep Sensor & Ribbon	FUSEENG	Fuses for ENG-KIT
180996	AC56 PCB TJ1 sensor for amalgam sep.	ORINGENG	O' rings for ENG-KIT
183010	Switch 0055 tip support micro-switch 5504	PLASTENG	Plastic fittings for ENG-KIT
183011	Switch 1116 Micro-switch 11/B tip support	SG32216	Case for Eng-Kit
201075K	Thread cap & seal Kit Grey	SG32807 x2	box 6 section for ENG-KIT (black/clear)
202422 x2	Retaining Clamp for ISO 18 (all fittings)	SG33353	Box for ENG-KIT 6 section
202573	By Pass Valve new type (assembled)	SG33355	Box for ENG-KIT 15 section

\*Please note the Engineers Kit does not contain model specific items and is only designed for general front line repair. It does not include all the parts for a complete service on any unit.

 <p>A B</p>	<p><b>Air Flow Meter (A)</b> <b>FLOW-METER</b></p>	<p>Handheld flow meter 50-550 ltr range Supplied with HVE adapter and base</p> <p>Air flow meter dimensions: H26 x 05 x W5cm.</p>
	<p><b>Pump Flow Meter (B)</b> <b>PUMP-FLOW-METER</b></p>	<p>Pump flow meter 200-2000 ltr per minute Supplied with 50mm and 40mm adapters</p> <p>Pump flow meter dimensions: H44 x 010 x W10cm.</p>
	<p><b>Vacuum Test Kit</b> <b>VACKIT</b></p>	<p>Asameter &amp; pressure gauge for measuring vacuum flow &amp; negative pressure - Supplied in carry case</p>
	<p><b>Suction Test Kit</b> <b>FLOW-GAUGE</b></p>	<p>Handheld gauge indicates vacuum flow rate with indicators of 250l/min and 300l/min on a coloured scale</p>
	<p><b>Compressor spanner</b> <b>COMP-SPAN</b></p>	<p>For bung removal on Cattani compressors</p>

## OIL-LESS COMPRESSORS

## PARTS

## 1 Cylinder Head (parts suitable for AC100 H13130 / AC100Q H13150)

## WARRANTY & EXTENDED WARRANTY

## TERMS & CONDITIONS

Warranty details for Micro Smart, Turbo Smart, Turbo Jet and Oil-Less Compressors.

Cattani Esam UK Ltd warranties are only valid providing the following is adhered too, this is in addition to our normal terms of trading below, they are also available on the Cattani website: [www.cattaniesam.co.uk](http://www.cattaniesam.co.uk).

1. All warranties cover faulty manufacture of mechanical and electrical components only. Faults deemed due to negligence or miss use will not be considered.
2. The system will be installed as per the recommendations in the operator's manual, by engineers who have attended the relevant training course at Cattani Esam UK Ltd.
3. The Cattani system must be maintained as per manufacturer's instructions, by a qualified engineer.
4. Daily maintenance must be carried out by trained surgery staff, otherwise this will void any warranty.
5. The user will be instructed as to the operation and maintenance of the system, it is the user's responsibility to request further training should they require, there may be an additional charge for this service.
6. The housing should be suitable for the appliance, and temperatures must be maintained as per manufacturer's instruction (+5°C - + 35°C). We recommend that forced air ventillation be installed for all Cattani capital equipment.
7. During the warranty period, the user must only use Magnolia cleaning products (Puli Jet Plus or Classic), these must be mixed as per the manufacturer's instructions and cleaning carried out using the manufacturer's method.
8. The system must be serviced using the genuine Cattani service kit, the service must be carried out within 13 months of the installation date and every 12 months thereafter (proof may be required).
9. Faults of any kind must be reported to the supplier and corrected within 36 hours, this includes all breakages, leaks or electronic faults.
10. Neglected and contaminated goods will not be accepted for return unless the correct 'Returns Procedures' have been followed, these can be found below.
11. Motors that are covered by the warranty will not be covered if water ingress is found on inspection.
12. As of 1st April 2022 all Cattani Smart units must be registered on the Smart App, please contact us via email [info@cattaniesam.co.uk](mailto:info@cattaniesam.co.uk) for further information.
13. Smart Suction systems that are not registered upon installation will only qualify for 12 months warranty as per manufacturers terms and conditions (4 week grace period).

## RETURNS PROCEDURE

## GENERAL

When goods are returned by the Customer because they have been incorrectly ordered by the Customer, the Company reserves the right not to accept the return of goods but if they are accepted by the Company it will be subject to the payment by the Customer of a restocking charge of 50% of the invoiced price of the goods. Goods ordered by the Customer and correctly supplied by the Company will not normally be accepted by the Company for credit.

The Company will not accept returns of tubing specifically cut to 1.5m lengths or less.

When goods are made to special order, payment must be made in full on delivery and the Company will not accept their return.

Parts returned for examination to the Company by the Customer are to be sent at the Customers expense.

A product that has been purchased in error can be returned for a full refund within 14 days of delivery as long as it is still in its original, unopened packaging. A refund will be given on the product cost only, this will not include postage and packaging.

## RETURNS PROCEDURE

## WARRANTY ITEMS

All claims under Guarantee must be accompanied by copy paperwork supplied (invoice or delivery note), which must be completed on installation and returned to the Company, without this no claim will be accepted. Proof of purchase i.e. delivery note or invoice number can also be accepted as proof of Guarantee.

Spare parts required for replacement under Guarantee must be clearly requested as under Guarantee when ordered and must include proof of purchase. These will be supplied at no charge. Claims for credit on parts ordered for under Guarantee items will not be granted.

1. No binding contract shall be deemed to have been made with the Customer until the Company has confirmed the Customer's order in writing in an acceptance of order. Following the acceptance of an order the company guarantees to store any personal data on secure servers and will never sell, share or distribute your information to other companies or third parties without your permission. For full details please see our privacy policy which can be found on our website: [www.cattaniesam.co.uk](http://www.cattaniesam.co.uk).
2. All and any business transacted and all or any service, advice or information provided, whether gratuitously or not by the Company shall be carried out provided subject to the terms and conditions and exemptions hereinafter set out and all such terms, conditions and exceptions shall apply to and be deemed to be incorporated in any agreement or contract made between the Company and its Customers. No variations or alternation of these terms, conditions and exceptions will have effect unless recorded in writing and signed by the Company.
3. Prices set out in acceptance of order are exclusive of value added tax (VAT) or any other taxes, levies or duties that may from time to time apply.
4. Prices set out in acceptance of order will be the price invoiced in the case of orders or contracts or any part thereof accepted for delivery within 2 months of the date of the acceptance of order. In the case of orders or contracts or any part thereof for delivery beyond the 2 months of the date of acceptance of the order or contract the Company shall be at liberty to revise quotations with or without notice (in the event of variation in the cost of components, materials, labour, transport or any other costs or charges applicable to the goods).
5. Payment of the invoice price shall be made net cash against invoice without deductions (and payment shall not be withheld or deferred on account of any set-off, claim or counterclaim). Invoices issued in one month should be paid by the end of the month following.
6. Any time or date for delivery named by the Company is intended as an estimate only and the Company shall not be liable for any loss, damage or expense arising directly or indirectly out of delay in delivery.
7. Delivery, if required by the Customer, shall be made to the address specified by the Customer in the UK. Customers are required to provide free assistance in unloading. The Customer shall fully indemnify the Company for any claims or proceedings arising from any act, neglect or default on the part of the Customers' servants or agents in so assisting.
8. If for any reason the Customer is unable to accept delivery of the goods at the time when the goods are due and ready for delivery, the Customer shall be liable to the Company for any reasonable cost of storage in addition to any other payment or damages for which the Customer may become liable in respect of the Customers failure to take delivery at the appropriate date.
9. Property in the goods shall pass to the Customer on payment. The risk in goods shall pass to the Customer on delivery.
10. If the Company adopts any change or alterations in the construction or design of the goods or the specification thereof, the Customer shall accept the goods so altered or changed in fulfilment of the order.
11. Contracts and orders are accepted subject to the Company receiving any necessary licence to purchase or to use the required materials or components and, to the Company being able to obtain such materials or components.
12. In the event of riots, strikes, lock outs, trade disputes, stoppages or restraint of labour or any disturbances or disputes with workmen, whether partial or general and whether on the Company's premises or elsewhere, inability to obtain, or shortages of, labour accidents, breakdown of plant or machinery, fire, explosion, political disturbances or impediments, hostilities, blockage or embargo, or any other cause whatsoever beyond the control of the Company, the Company shall be entitled at any time, on notice to the Customer, to determine the contract (or to suspend delivery).
13. The Company shall in its absolute discretion be entitled to sub-contract the fulfilment of the order or any part thereof or any part or all of the business or services to be rendered under or in connection with any agreement or contract with the Company.
14. In the case of partial completion of any order, the Company shall be entitled to a quantum meruit in respect of all work done by it, without prejudice to any rights of the Company in the event that non-completion is occasioned by the Customer.
15. The Customer shall indemnify the Company against all damages, penalties, costs and expenses to which the Company may become liable if any work done in accordance with the Customer's specification involves infringement of a registered design or patent.
16. The Company shall be entitled to retain possession of the goods until payment.
17. All agreements between the Company and its Customers shall be governed by English Law and be within the exclusive jurisdiction of the English Courts.
18. The Company shall not be liable to its Customers for any loss of profit or contracts or any consequential loss whatsoever, however caused.
19. In the event of personal injury or damage to property the liability of the Company shall not exceed the sum named on the acceptance of order for any one act, neglect or default of servants or agents or others whom the Company may be responsible. The Customer will keep the Company indemnified against any such claims exceeding the sum named on the acceptance of the order.
20. The Company's products carry a year's Guarantee from the date of installation (unless otherwise stated).
21. The Guarantee covers the replacement of parts where failure is proven to be a result of faulty manufacture only.
22. The Guarantee does not include bulbs, parts made of rubber, silicon rubber, etc. or where negligence or misuse by the Customer is proven.
23. Postal charges will be charged to the Customer when the Customer requires postal delivery and there will be a minimum postal charge of £5 on small packages and £8 on medium packages (recorded delivery will incur a surcharge).  
Large packages will be sent via courier with a minimum carriage charge of £10 (subject to weight and dimensions).
24. When goods are returned by the Customer because they have been incorrectly ordered by the Customer, the Company reserves the right not to accept the return of goods but if they are accepted by the Company it will be subject to the payment by the Customer of a restocking charge of 50% of the invoiced price of the goods. Goods ordered by the Customer and correctly supplied by the Company will not normally be accepted by the Company for credit.
25. The Company will not accept returns of tubing specifically cut to 1.5m lengths or less.
26. When goods are made to special order, payment must be made in full on delivery and the Company will not accept their return.
27. Parts returned for examination to the Company by the Customer are to be sent at the Customers expense.
28. The Company's decision on all Guarantee claims shall be conclusive for all purposes.
29. Prices do not include the cost of connection of any equipment. It is the sole responsibility of the Customer to arrange installation.
30. All claims under Guarantee must be accompanied by copy paperwork supplied (invoice or delivery note), which must be completed on installation and returned to the Company, without this no claim will be accepted. Proof of purchase i.e. delivery note or invoice number can also be accepted as proof of Guarantee.
31. Spare parts required for replacement under Guarantee must be clearly requested as under Guarantee when ordered and must include proof of purchase. These will be supplied at no charge. Claims for credit on parts ordered for under Guarantee items will not be granted.
32. The Company reserves the right to make changes to the price of goods at any time without prior notice to the Customer.
33. The Company reserves the right to impose a minimum order value of £30.
34. A product that has been purchased in error can be returned for a full refund within 14 days of delivery as long as it is still in its original, unopened packaging. A refund will be given on the product cost only, this will not include postage and packaging.

WE HAVE BEEN SPECIALISING WITH AIR TECHNOLOGY  
FOR OVER 50 YEARS:  
SPECIALIZATION HAS GIVEN EXCELLENT RESULTS.

**HOW IS IT WE LEAD IN OUR FIELD, WHEN WE COST LESS THAN THE ALTERNATIVES? THIS IS HOW:**

**Constant research:** this enables us to apply the latest technology to all of our products and solutions.

**We enhance performance:** electronic and information technology enable us to enhance the performance and reliability of our products.

**We reduce costs:** less maintenance and lower energy costs mean that we are always the most economical on a cost-benefit analysis.

**We reduce environmental impact:** we save 50% on raw materials, so that you can save between 30% and 50% on electrical consumption.
